FIRE FROM THE ASHES

Ally Resource Pools

Certain cards within the Fire from the Ashes custom expansion refer to an ally's resource pool. Allies don't normally have their own resource pool. However, if an ally card instructs you to add or move resources to its (resource) pool, that ally gains a resource pool if it didn't already have a resource pool. As soon as that ally loses all of its resources, it also loses its resource pool.

Greed

Greed is a new trigger that appears on some player cards within the Fire from the Ashes custom expansion. **Actions and Responses** with the **Greed** trigger, presented as "Greed Action" or "Greed Response," can only be triggered by a player whose deck is empty.

If an event card has two effects, one with the **Greed** trigger and one without, you may only choose one of these two effects to trigger when you play the card.
